- Disaster Recovery & Continuity

Cyber Security
Quietly & unobtrusively listens on open ports to capture threats & rogue IT assets, captures unexpected changes, supports anti-virus & web filtering tools & identifies network anomalies

Network Protection
Monitors all network traffic, identifies top network users, captures large file movements, helps with outages & system availability

Technology Assets
Captures & identifies all IT assets by model number, serial number, MAC address, & captures all software licenses with versions

Technology Support
Monitoring & managing technology platforms, diagnosing hardware & software faults & providing ongoing solutions to technical problems

Real-Time Auditing
Extensive & continual monitoring of IT assets, software licenses & versions, cyber security threats, rogue devices, network traffic, users experience & system availability

Solution Creation
Requirements gathering technology selection, platform architecture, design & implementation

Contact Us for a
technology IT Audit

With MinervaWorks' proprietary application... "The Brick" Technology Probe, we will provide you with the answer to not knowing what you don't know about your technology platforms. MinervaWorks Technology Consulting will provide an assessment & audit of your current IT infrastructure.
